

Quest® Toad® for Oracle

Find the edition that's right for you.

No matter what your skill or experience level, there's an edition of the Quest® Toad® for Oracle database management toolset that will help you easily complete your work with increased speed and accuracy. With Toad, you can perform essential database development and administration tasks from a single, intuitive toolset. The Toad solution makes it fast and easy to generate queries and reports, perform SQL development and optimization, detect and diagnose database problems, automate administration tasks and more.

We offer five editions of Toad for Oracle: Base, Professional, Xpert, Developer and DBA. This allows you to get the best tools for your specific business needs.

Toad for Oracle Base Subscription — Provides time-saving functionality to help you create and maintain PL/SQL code with many features for both developers and DBAs. Includes a robust, integrated debugging suite for PL/SQL, task automation and utPLSQL unit testing that incorporates testing into database development processes.

Toad for Oracle Professional Edition — Includes all functionality in the Base Subscription and helps developers improve code quality with additional components to perform code reviews and analysis and generate test data. It also alerts developers when they touch potentially sensitive data and, for an additional license fee, helps data controllers find and protect sensitive data easily.

Toad for Oracle Xpert Edition — Includes all the components in Professional, plus SQL Optimizer for Oracle, which detects and analyzes problematic SQL statements and automates tuning for improved application performance.

Toad for Oracle Developer Edition— Provides a complete team development environment with everything in the Xpert Edition, plus automated PL/SQL code testing and database performance testing with workload replay and scalability testing. Complements the Toad DevOps Toolkit solution to help bring Oracle database development/ deployment processes into DevOps.

Toad for Oracle DBA Edition — Offers a comprehensive toolset to simplify complex administration tasks and predict, diagnose and resolve performance issues. Available for Oracle (RAC and Exadata), the DBA Edition includes everything in the Xpert Edition, plus the DB Admin module, Spotlight® on Oracle for performance diagnostics, Benchmark Factory® for scalability testing and Toad Data Modeler to create and maintain data models and reverse engineer data structures from more than 20 different database platforms.

ABOUT QUEST

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Quest Software. Where next meets now.

	Base	Pro	Xpert	Developer	DBA
Single user subscription billing (12-month term)	X	X			
Sensitive Data Awareness (flags sensitive data usage)		X	X	X	X
Sensitive Data Protection* (identify and protect sensitive data)		X	X	X	X
utPLSQL unit testing	X	X	X	X	X
SQL editor	X	X	X	X	X
Query builder	X	X	X	X	X
Schema/data compare (sync in Xpert and DB Admin Module)	X	X	X	X	X
Task Automation	X	X	X	X	X
Debugger/profiler	X	X	X	X	X
Data generation		X	X	X	X
Code quality analysis and reporting		X	X	X	X
SQL optimization (SQL Optimizer)			X	X	X
Advanced PL/SQL unit testing (Code Tester)				X	
Performance/benchmark testing (Benchmark Factory)				X	X
Data modeling (Toad Data Modeler)					X
Database health checks and many other advanced functions (DB Admin Module)					X
Performance and predictive diagnostics (Spotlight on Oracle)					X

* Sensitive Data Protection is available for a separate license fee.
